STAT

PLANS AND PROGRAMS STAFF WEEKLY REPORT FOR
PERIOD ENDING 6 APRIL 1983

1.  Progress Report on Tasks Assigned by the DCI/DDCI:

    No tasks assigned during this reporting period.

2.  Items or Events of Major Interest that have Occurred
    During the Preceding Week:

    a.  LIMS

        (1)  P&PS and AD/PP/OF are in the process of evaluating
Requisition Module requirements, as currently documented.  The
content of this module is, of course, the key to the entire system
in that it provides the entry of all customer requests into the
system, assures their validity, and routes them to the action
modules.  Concerns, questions, and critiques of this module will
be forwarded to the SDG for resolution today.  This will initiate
an on-going dialogue that will ultimately resolve issues,
problems, and methodologies.

        (2)  Revised project milestones (to be used for the next
MBO update) have been received from the Project Manager.  Most
milestones, including DEVCON award, for the first five months of
calendar 1983, reflect 2-10 weeks slippage.  This is due, in part STAT
to resource shortages.

    b.  Regulation Revisions

        The following regulations were reviewed, commented upon, STAT
concurred in, or published during the past week:

            Cable Handbook - Non concurrence.  We
questioned whether it can be stated in an HR or HHB that
the IBM Selectric is the only typewriter that can be used
for cables.  Instead, we recommended that the handbook say
"IBM Code 108 font or equivalent".  Other comments were
minor, but we had many--the two handbooks together con- STAT
tained 260 pages!

            Insurance - Concurred                          STAT

            Chapter V, Custody of Funds - Concurred.
(Last week we had reported nonconcurrence on the HR and
HHB, same subject.)

Systems Analysis Branch/P&PS/OL
WEEKLY STATUS REPORT
Week of 28 March to 1 April 1983

I.    Major Activities During the Past Week:

A. Support to OL:

     FARS (Federal Automated Requisitioning System).  A meeting
was held on 30 March to discuss general matters relating to the
FARS system.   Such items as personnel training, personnel changes,
and component responsibilities were discussed.  In attendence were
[                    ] of Data Control Branch/SD/OL, [        ]     STAT
[                    ] of Interdepartmental Support
Branch/SD/OL, [                    ] of Systems
Analysis Branch/P&PS/OL, and [                    ] of Plans and Programs
Staff/OL. [                    ]                                     STAT

     AVRS (Agency Vehicles Records System).  Files were created to
contain the test version of the NIPS procedures.  Several jobs
were successfully run that tested and validated the new test
version of the various NIPS procedures.  These NIPS procedures
will become the production version effective 8 April 1983.
[                    ]                                              STAT

     AWCS (Automated Weapons Control System).  Files were created
to contain the test version of the NIPS procedures.  Several jobs
were successfully run that tested and validated the new test
version of the various NIPS procedures.  These NIPS procedures
will become the production version effective 8 April 1983.
[                    ]                                              STAT

II.   General Items:

      None to report.

III.  Problems:

      None to report.

IV.   Upcoming Events

      None to report.
